

SUARTS POLICY | RIGHT TO PRAYER

This Union Notes:

1. That every student has the right to an appropriate facility in which they may observe any prayer times within the site at which their course is located.

This Union Believes:

1. That students should not be made to travel to other sites within their college or at other colleges for the use of a facility for prayer.
2. That any facility provisions should be appropriate for multiple-faiths and offer sufficient provision for all faiths that may wish to use it at any time.
3. That, if deemed appropriate by those who are to use the room, the space may be used at other times for other activities, providing that at appropriately designated times it may always be available for prayer.

This Union Resolves:

1. To act in pressuring appropriate bodies within the University to ensure the provision of prayer facilities on every site in the University, unless in exceptional circumstances the students at a site do not deem it necessary.
2. To ensure members of every faith that might need the use of such rooms so that sufficient and respectfully flexible provision is provided.
